PROFESSIONAL SUMMARY

Final-year BCA student and TCS iON DevOps Intern with hands-on experience building full-stack web applications using React.js, Node.js, and PostgreSQL/MongoDB. Designed and deployed a CI/CD pipeline on AWS reducing deployment effort by ~40%. Delivered two production-ready projects featuring JWT authentication, RESTful APIs, and real-time booking workflows. Seeking a full-stack or backend developer role where I can contribute to scalable, user-focused products.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js, RESTful API Development, JWT Authentication

Database: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS (EC2, S3, RDS), Docker, Git, CI CD

Tools: Postman, Drizzle ORM

EXPERIENCE

DevOps Intern – TCS iON (Tata Consultancy Services)

Nov 2025 - Feb 2026
Bangalore, India

- Designed and implemented an automated CI CD pipeline using AWS CodeCommit, CodePipeline, CodeDeploy, and Amazon EC2 for continuous application delivery.
- Configured IAM roles, AWS CLI, and Apache web server to enable secure and structured deployment workflows.
- Automated build and deployment processes, reducing manual intervention and improving release consistency.
- Monitored pipeline execution and resolved deployment issues through log analysis and configuration updates.

PROJECTS

Cricket Ground Booking Platform | [GitHub](#)

Aug 2025 - Nov 2025

TypeScript, JavaScript, React, Express.js, PostgreSQL, Drizzle ORM, Tailwind CSS

Web platform that enables users to book cricket grounds with real-time availability, calendar scheduling, and automated booking management.

- Developed a full-stack sports facility booking system with real-time slot availability and database-driven reservations.
- Implemented calendar integration and backend APIs using Express.js and PostgreSQL with Drizzle ORM for efficient data handling.
- Built responsive UI with React and Tailwind CSS to streamline booking workflows and improve user experience.

TaskiFlow Project | [GitHub](#)

Nov 2025 - Feb 2026

MERN Stack, Vite, TailwindCSS, Node.js, MongoDB, JWT, Nodemailer

Task management application designed to streamline task creation, tracking, and notifications.

- Built a full-stack task management system using the MERN stack (MongoDB, Express.js, React, Node.js) with a responsive UI powered by Vite and TailwindCSS.
- Implemented secure user authentication with JWT, password hashing using bcrypt, and email notifications via Nodemailer for password resets and task updates.
- Deployed on Vercel with optimized configurations, including security features like Helmet, rate-limiting, and input sanitization for production readiness.

CERTIFICATIONS & ACHIEVEMENTS

- Frontend Development using React – Board Infinity (Coursera)** | Oct 2025 | Credential ID: SOAT74O0JE39
- Interactive Statistical Data Visualization 101 – Coursera** | Apr 2025 | Credential ID: HJUCJHDYBVOX
- Strategic Leadership and Management Capstone – University of Illinois Urbana-Champaign** | Apr 2025 | Credential ID: DM4L8URG9K7
- CI CD Pipeline with AWS Native – TCS iON** | Nov 2025 – Feb 2026 | Credential ID: 1252-28910953-1016

EDUCATION

Bachelor of Computer Applications (BCA)

2023 - 2026

Yenepoya (Deemed to be University), Bangalore | CGPA: 7.6

Expected Graduation: June 2026
